Product name One year regular savings account – issue 12

What is the interest rate?

Rates effective 21 February 2024		
	Annual interest gross p.a.*	AER*
£25+	5.10%	5.10%

*Gross p.a. is the rate of interest paid without the deduction of tax per annum. Please note that the automatic deduction of tax on savings interest ceased with effect from 6 April 2016. AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and compounded once each year. As every advertisement for a savings product will contain an AER you will be able to compare more easily what return you can expect from your savings over time.

Where interest is payable, interest is calculated daily and can be credited to the account or transferred to your nominated account.

Where annual interest is payable, annual interest is paid on maturity. Where payable, monthly interest is paid on the last working day of each month.

Where payable, the final interest payment will be made on the maturity date.
